NEED TOOLS? THINK CH TOOLS.

01 • WHO WE ARE

ON THE GROUND IN EMERALD

EMERALD QLD

AN INDUSTRIAL SPECIALIST, NOT A HARDWARE STORE.

CH Tools is the specialist trade and industrial tool shop on the ground in Emerald — family-owned, run by people who have spent their working lives in trade and resources.

We carry depth across power tools, hand tools, welding, abrasives, lifting, PPE, trailers, and workshop equipment. The brands your crews ask for are the brands we run. What we do not have, we get in.

We service the Central Highlands and the Bowen Basin through five channels — the shop, the mobile van, on-site vending, supplier reps, and direct industrial supply. One account covers all of them.

Direct trade accounts with the brands, weekly inbound from every major supplier, and a team who knows what a crew needs before they finish the sentence.

02 • WHY CH TOOLS

GEOGRAPHY IS THE PRODUCT

Mine site procurement has a problem that distance creates. When a tool goes down, production stops — and an order placed with a metro supplier is measured in days by the time it reaches Moranbah. CH Tools is built around closing that gap. We are in Emerald, in the middle of the region we supply.

01 RESPONSE — WE ARE IN THE REGION, NOT SHIPPING INTO IT

Being based in Emerald changes the arithmetic. Your crew can collect from the counter the same day. Everything else we deliver next day inside a 50km radius of Emerald, and within 24–48 hours anywhere beyond it — most of the Bowen Basin goes overnight. No waiting on a metro warehouse to pick it, pack it and put it on a truck.

02 DEPTH — THE BRANDS CREWS ACTUALLY RUN

Milwaukee, Makita, DeWALT, Cigweld, Kincrome, SP Tools, Knipex, Genius, Safestyle — the brands that turn up on Central Highlands sites, carried through authorised Australian distribution with full supplier warranty. No parallel imports, no grey-market stock.

03 LOCAL — COUNTS TOWARD YOUR LOCAL CONTENT

Central Queensland family business, independent, based in Emerald. Spend with CH Tools counts toward your local content commitment, regional spend KPIs, and local supplier ratios.

We are registered and trading through VendorPanel and C-Res (Local Buying Foundation), and are an approved supplier to Whitehaven, Sojitz and Glencore vendor systems.

REGISTERED VENDOR SYSTEMS

VENDORPANEL • C-RES (LOCAL BUYING FOUNDATION)

WHITEHAVEN • SOJITZ • GLENCORE OPERATOR PORTALS

03 • HOW WE WORK

FIVE CHANNELS. ONE ACCOUNT.

CH Tools is built to keep your crews running — wherever they are working in the Highlands.

CHANNEL	WHAT IT DOES	BEST FOR
Shop	Walk in. Browse. Get advice. Walk out with it.	Daily replacements, urgent gear, technical questions.
Mobile van	The shop on wheels. To your yard or site.	Remote crews, no time to come in, site fit-outs.
Vending	On-site vending machines, stocked and tracked.	Sites needing 24/7 PPE and consumables with usage reporting.
Supplier reps	Brand reps on the road with us — Milwaukee, Makita, DeWALT and more.	Equipment specs, technical support, demos, larger purchase decisions.
Direct supply	Quoted purchasing through your trade account.	Workshop fit-outs, project gear, larger orders.

INVENTORY & SUPPLY

- Approximately **\$4.5 million in inventory** held in Emerald across the anchor brands
- Weekly inbound from every major supplier on our account list
- Direct trade accounts with the brands, not through a buying group middleman

We carry real depth across the anchor brands, but we do not pretend every line is on the floor every day. Where an item is not on hand, we order it against our weekly inbound and it lands inside the delivery windows overleaf.

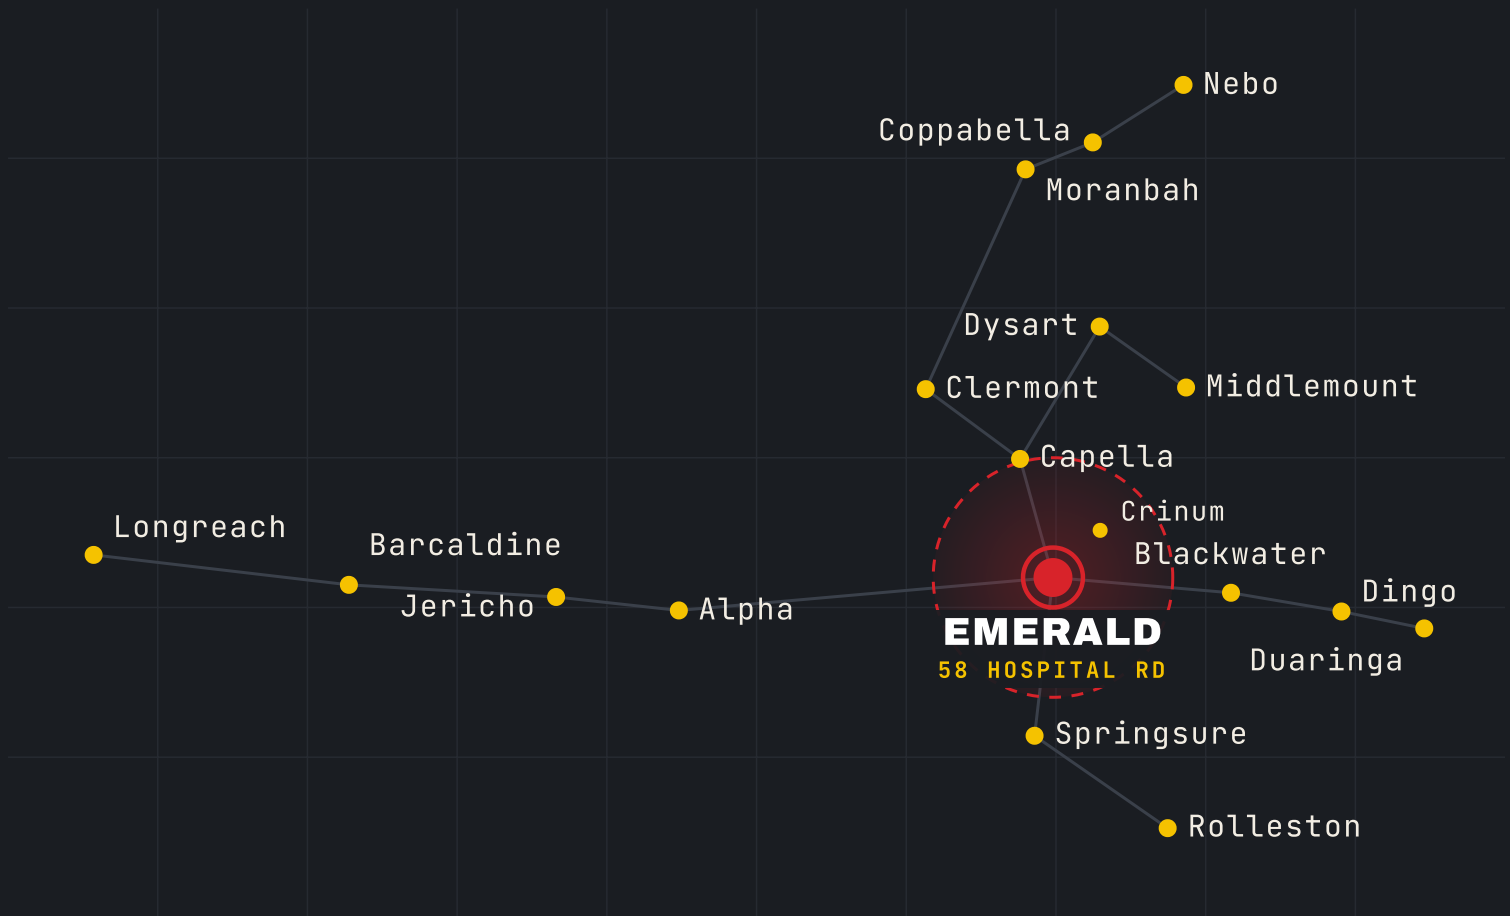

COUNTER, VAN, VENDING, REPS OR DIRECT —

GENUINE PRODUCT. FULL SUPPLIER WARRANTY.

Every tool we sell is sourced through authorised Australian distribution — no parallel imports, no grey-market stock. Full supplier warranty applies on every unit, and our team manages the warranty claim with the manufacturer's support. Bring it to the counter and we take it from there — your crews are not chasing a claim through a call centre.

CATEGORIES WE COVER

Abrasive & cutting • Air tools • Automotive tools • Chemicals & lubricants • Drilling & threading • Hand tools • Hardware • Lifting & handling • Measuring tools • Power tools • Safety & PPE • Tool storage • Trailers • Welding • Workshop equipment

06 • ON-SITE VENDING

CONSUMABLES AND PPE, TRACKED

For sites that need consumables and PPE available around the clock with proper tracking — we install the machines, stock them to your list, and keep them running.

WHAT YOU GET

- Vending machine on site — we own it, we maintain it.
- Stocked to your list — PPE, gloves, abrasives, Loctite and consumables.
- Usage reports per employee, crew, or cost centre.
- Restock visits built into the schedule.
- One contact when something needs attention.

WHEN IT WORKS BEST

- Operations with strict PPE compliance requirements
- Sites more than an hour from the nearest supply
- Cost-centre reporting and shrinkage control
- Reducing out-of-stock downtime on essentials

IN SERVICE

CURRENTLY DEPLOYED WITH A HEAVY EQUIPMENT OPERATION IN THE BOWEN BASIN

PPE • GLOVES • ABRASIVES • LOCTITE • CONSUMABLES — STOCKED AND TRACKED

07 • TRAILERS

SITE TRAILERS, PLANT TRAILERS, CUSTOM BUILDS

Trailers are a growing part of what CH Tools supplies — and unlike the tool range, this is gear we can spec and build to what the job needs.

FOR SITE AND PLANT

- Plant and machinery floats
- Site service and workshop trailers
- Skip bin and waste trailers
- 20ft container trailers
- General box, cage and tipper trailers

CUSTOM AND COMMERCIAL BUILDS

We can source and supply purpose-built trailers to order — food and vending trailers, horse floats, and one-off commercial builds. If you can specify it, we can quote it.

**QUOTED TO SPEC.
DELIVERED TO SITE.**

**BOX, CAGE AND TIPPER TRAILERS

IN THE YARD

08 · WORKSHOP & HEAVY INDUSTRIAL

BEYOND THE RETAIL SHELF

We supply commercial workshops and industrial operations with equipment that does not sit on a retail shelf. If you are specifying gear for a project or kitting out a new bay, we quote, source, deliver, and stand behind it.

EQUIPMENT WE SUPPLY

TYRE CHANGERS	WHEEL BALANCERS	VEHICLE HOISTS	LUBE BAY FIT-OUTS
PUMPS & METERING	HOSE REELS	FLUID HANDLING	HEAVY LIFTING GEAR
GENERATORS	COMPRESSORS	FUEL PODS & TANKS	TOOL STORE STOCKING

TURNKEY

COMPLETE WORKSHOP FIT-OUTS — QUOTED, SOURCED, DELIVERED AND INSTALLED

INDUSTRIES WE SUPPLY

- Mining and resources
- Civil construction and infrastructure
- Agriculture and pastoral
- Heavy haulage and transport
- Local government and council
- Workshop and service trades

RECENT CAPABILITY

COMPLETE WORKSHOP FIT-OUT

Central Highlands fabrication business — second workshop, newly built, 2026.

ANCHOR AND RIGGING SUPPLY

Contractor installing a temporary workshop facility.

09 · MINE SITE SUPPLY
